

RoHS and REACH CERTIFICATE OF COMPLIANCE

RoHS

Based on information obtained from our component suppliers, this document certifies that ALL SynQor products are “RoHS-5” compliant and do not exceed the designated levels of Cadmium, Hexavalent Chromium, Mercury, Polybrominated Biphenyls or Polybrominated Diphenyl Ethers, legislated under the provisions of the European Parliament and Council Directive on the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment (2011/65/EU Annex II), or Bis(2-ethylhexyl) phthalate, Butyl benzyl phthalate, Dibutyl phthalate, or Diisobutyl phthalate, legislated under the provisions of the European Parliament and Council Directive on the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Commission Delegated Directive (EU) 2015/863 of 31 March 2015 (“RoHS3”), and regulations promulgated thereunder, collectively, the “RoHS Regulations.” Lead is the only exception and is used in added solders. Additionally, based on such information, SynQor products do not contain Deca Brominated Diphenyl Ether (Deca BDE) legislated under the provisions of the European Commission Decision of 13 October 2005 (2005/717/EC), do not contain as intentional additives Perfluorooctylsulfonates (PFOS) legislated under the provisions of the European Parliament and Council Directive 2006/122/EC (30th amendment to EU Directive 76/769/EEC), and do not require any exemptions per “RoHS2” with the exception of the following: 7(a) Lead in high melting temperature type solders (i.e. lead-based alloys containing 85% by weight or more lead, used in some integrated circuits); 7(c)-I Electrical and electronic components containing lead in a glass or ceramic other than dielectric ceramic in capacitors, e.g. piezoelectronic devices, or in a glass or ceramic matrix compound; and 7(c)-II Lead in dielectric ceramic in capacitors for a rated voltage of 125 V AC or 250 V DC or higher.

Fully RoHS Compliant versions of SynQor products (“RoHS Compliant” according to the RoHS Regulations as referenced above) became available on January 1, 2006. All such products designated with a “-G” suffix are Fully RoHS compliant. Please refer to the product datasheet or the RoHS Product Addendum for product specific and additional product RoHS compliance status.

REACH

Based on information obtained from our component suppliers, this document also certifies that NO Fully RoHS Compliant SynQor products contain Substances of Very High Concern (SVHC) as listed by the European Chemicals Agency (ECHA) under the provisions of Regulation (EC) No. 1907/2006 of the European Parliament and of the council concerning the Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH) per the ECHA 23 January 2024 (SVHC 240) update and previous updates. All such products designated with a “-G” suffix are Fully RoHS compliant. Please refer to the product datasheet or the RoHS Product Addendum for product specific and additional product RoHS compliance status.

The provisions of this certificate supersede and replace the provisions of all other certificates previously delivered relating to compliance with the RoHS and REACH Regulations.

Additional information about SynQor RoHS products may be found on SynQor's website at <http://www.synqor.com/products-lead-free.html>. Questions regarding RoHS or REACH compliance may be directed to RoHS@synqor.com.
